

Research Course in Molecular Virology and Pathogenesis

About the course

The aim of this course is to provide a broad and in-depth knowledge in the field of Molecular virology, with a special focus on pathogenesis. Senior Swedish and international researchers will give lectures and lead discussions on important virus families and the diseases they cause. An overall goal of the course is to understand how virus cause specific clinical symptoms and what host and virus factors are important in the pathogenesis. The course also includes presentations and poster sessions where participants can communicate their research, time for group discussions and networking activities.

Dates and venue

The course will be held 19th (starting at lunch)- 21th of August, 2024 in Smögen, at the west coast of Sweden. The venue is Smögens Havsbad <http://www.smogenshafvsbad.se/> same as for the Smögen Symposium of Virology, which starts directly after the course on the 22th of August. Bus transfer from Gothenburg to Smögen will be arranged on Monday morning 19th. The registration fee covers food and accommodation from Monday 19th (lunch) until Thursday 22th (breakfast), including access to pool, sauna and spa.

Who can apply?

Registered PhD students and postdocs working in virology are welcome to apply. In case of many applications, PhD students will have priority.

Course fees

Single room	5985 SEK	(6766 incl. VAT)
Shared double room	5085 SEK	(5758 incl. VAT)

Course registration: Please E-mail Johan Nordgren: johan.nordgren@liu.se

Registration deadline June 4, 2024
