

Course on:

Translational Infection Research From Bench-to-Bedside and Back

This course is designed to strengthen your knowledge, professional network, and collaborations in translational infection research.

Topics covered include:

- basic design of clinical studies
- good examples of translational clinical studies
- from mechanism to clinic
- unique possibilities and infrastructure in Sweden

The course also features an **interactive workshop** where students refine and develop their own project plans with expert guidance.

Course organizers:

Pontus Naclér, Karolinska Institutet
Annasara Lenman, Umeå University
Anders Johansson, Umeå University
Clas Ahlm, Umeå University

Organized by:

In collaboration with:

When:

19-21 October, 2026

Where:

Stora Brännbo
Sigtuna, Sweden

Who:

Clinical and pre-clinical
PhD students and
postdocs

How:

Apply by **7 September**
through NDPIA
membership at:
ndpia.se
